Summary of Comments

What works well?	Edmodo – Its working well this term with spellings and homework. I can check the homework. Able to chose the work for the day Uploading work and getting it marked Having a variety of subjects to learn Purple mash is good – my child really likes this Easy to view and download the work. Teacher feedback is great Printing out work for families without a printer Children seeing each other’s posts on Edmodo Personal messages form the teacher Edmodo is so easy to follow and understand I prefer to do worksheets that follow on-line links The maths videos are good
Even better if?	Live lessons? It would be great if we could see the teacher explaining the tasks Less reliance on printing A live lesson with all the class watching on-line Too much reading of long texts. Can they watch videos instead? More feedback from the teacher so we can correct the mistakes Too much Twinkl. More phone calls if we go into lockdown again. I would like a video call once a week.
