

Comments from the children:

We have done a lot of brilliant activities. One of my favourites was the car parachute experiment where we got a toy car and designed our own parachutes to test air resistance.

I like to do some reading in the cosy reading rainforest corner.

Year 5 provides us with a wonderful library of amazing chapter books.

Year 5 is incredible! Everything about it is fun and exotic!

I enjoy every day, every lesson, every page because it is fun.

I really enjoy the Reading Race as I love reading and like watching my chart grow.

I love how we can write more and in many different writing styles (or genres).

Year 5 is amazing! We can make good friends, learn lots and we do nearly anything!

I like doing fractions because they are really fun.

I like how in Year 5 the teachers are so supportive and they will help and guide you through your learning.

I also like the classroom because the teachers have spent time making it really colourful.

I love all the lessons and how happy everyone is and that I feel safe. All the staff are lovely and they help you in so many ways and they make you feel safe and happy at school.

The books are like helium balloons - you can't put them down!

The teachers in class 5 make really hard not to enjoy school.

Welcome to Year 5. Your dream year of fun.

I enjoy the Challenge Reads, the teachers, the lessons and I really like my friends.

Year 5 has made me more confident in my learning.

All the books take my mind on an adventure every time.

I liked it when Malton Secondary School came in and showed us easy and cool experiments.

I like all the teachers because they make you feel welcome every time you walk through the door.

All the experiences are amazing and unique.
